

F.0 Update

MOM Status

“Don’t Panic”

– Douglas Adams

Richard Weatherly, Ph.D.
9 October 1996

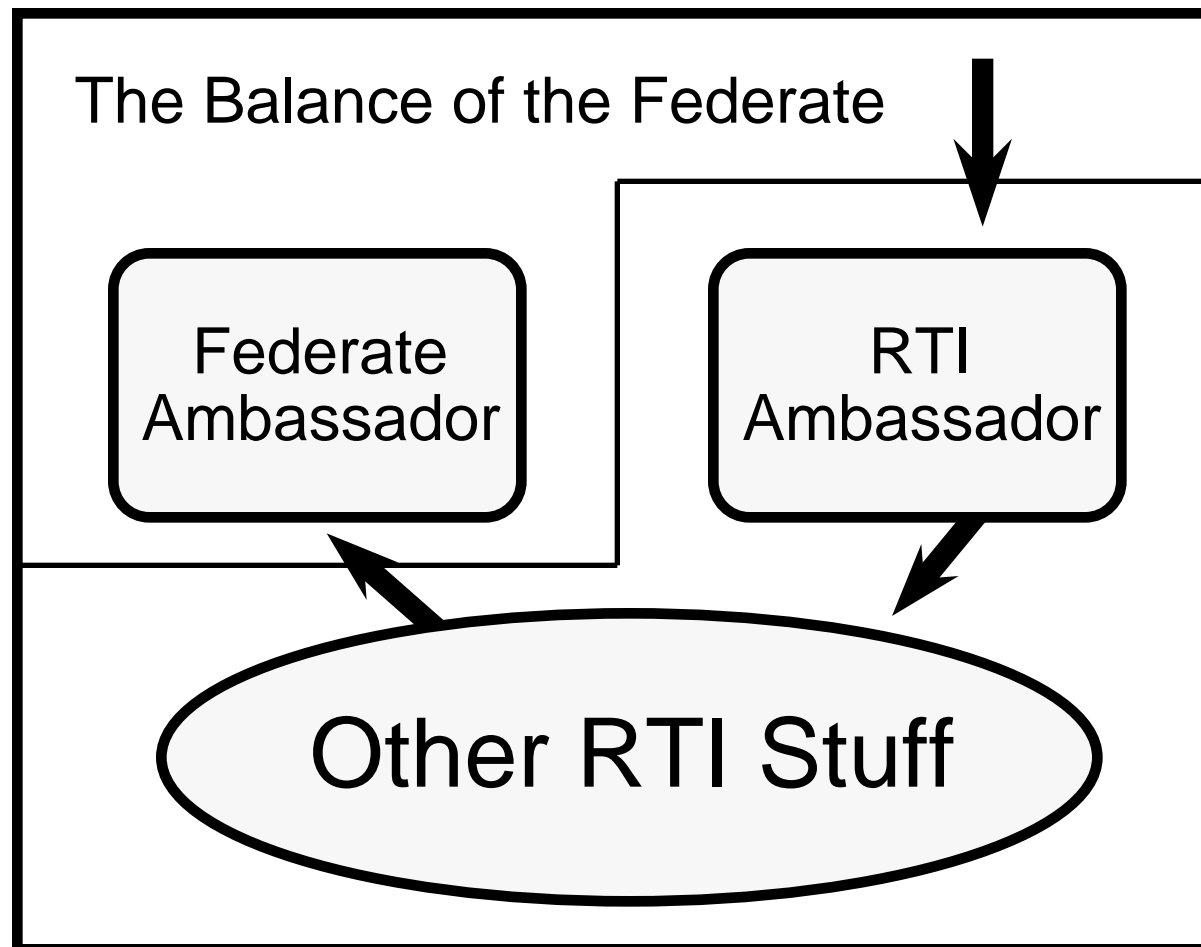

High Level Architecture

Agenda

- **Current work on the RTI F.0**
 - I/F Specification in HTML on the DMSO home page
 - F.0 C++ API in HTML on the DMSO home page
 - More that 100 pages of design notes
 - 25,000 lines written since last AMG
 - All major functionality is complete
 - pre-Alpha system delivered to the IEC 10-7-96
- **Goals for the MOM in F.0**
 - Send interactions when something interesting happens
 - Receive interactions that adjust the state of the RTI
 - Register and update one object for each federate
- **MOM working group activites**
 - Several thoughtful responses
 - Draft out for review this week
